Linka specializes in large format
digital printing and sign manufacturing.

About Us

Linka specializes in large format digital printing and sign manufacturing.

Our extensive experience allows us to recognize current trends in design, printing and signage, so that we are always able to provide the best possible solutions.

We constantly invest in advanced technology, in order to produce works and services at the highest possible standards, together with our highly qualified staff from design to printing and installation.

If it's printing, we make it happen! Whether it is decorative or a request to upgrade your business look we can create cutting-edge solutions and provide quality finishes. At Linka we specialize on large format prints and wallpaper. We print banners, exhibition displays, Di bond and PVC Prints Banners and privacy films.

We also print on glass, wood, metal, keychains, Mugs T shirts, etc. and with our CNC laser, we can create 2D and 3D products

We are able to creatively combine and adapt our skills and techniques to reach the expected requirements of all our clients. Our clients expect their suppliers

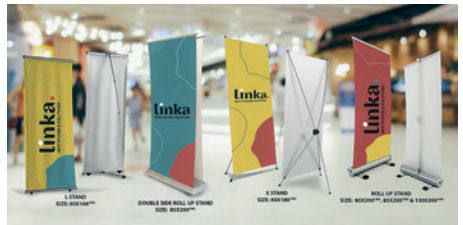

to be reliable, quality driven and meet deadlines. On even the smallest job, one member of our team will take responsibility for a project to see the job through from order to installation.

At Linka we understand the importance of producing samples of proposed material finishes and product solutions. We actively encourage a free of charge sample service, which ensures that both designer and clients are happy with the finish and colors. Please do not hesitate to ask for a sample when discussing your project with us.

When you're are ready for big success we're here for you!

We can help your business get noticed with effective signage including:

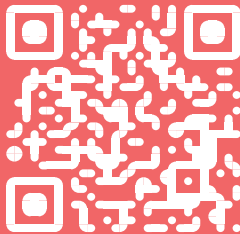

- Posters and Banners
- Window Signage
- Reception Signage
- Vehicle Signage
- Stickers and Wall papers
- Promotional Materials
- Way finder Signs
- Garment Printing
- and more ...

Walls

Wallpaper turns blank walls into marketing space with color, logos or images. Wall paper is ideal in offices, reception and boardrooms. Corporate reception signs give the first impression of your business so the signage should reflect your brand. Order wallpaper of any kind at Linka, a wall paper provider in Malta.

Wall Covering

If you are looking for a wallpaper shop in Malta, look no further than Linka. We digitally print images onto all sizes of wall covering material from a selection of thousands of licensed images. A vast selection of wall paper images is available for one to choose from, or one can opt for a custom-made artwork.

We can also transform own photos or artworks into a mural, or you can let our team of design professionals create an exclusive design of wall paper for you. We can create what you can imagine on regular wallpaper and textured wallpaper. Different PVC free print Medias provide textures like Linen Texture, Grated and Embossed finished can provide a feel and stunning look.

PVC Self-Adhesive Vinyls

Wide format digital print onto self-adhesive vinyl has all manner of applications. From being applied over existing signage to internal wallpaper. They are perfect for both indoor and outdoor graphics displays, featuring excellent outdoor durability, including a top layer of lamination. Stunning printing performance is obtained by using the best possible materials, good dimensional stability and weather resistant.

We offer the following materials:

- Soft -PVC
- Monomeric
- White Glossy
- Permanent
- Clear adhesive
- Grey Back (Blackout)
- Sign Cut

Large canvas prints create a marvelous visual impact; making it a fantastic focal point for any room, from residential homes, up to hotels, commercial premises, corporate offices, etc.

Canvas prints can be made from your hi-res pictures or from images sourced through our unique image archive of thousands of fine art images and photos.

Canvas prints are printed using the latest 12 inks technology printers. The permanence of the inks in combination with a UV laminate gives consistent results every time. After printing, the prints are stretched and wrapped around a wooden pine frame.

Canvas Prints

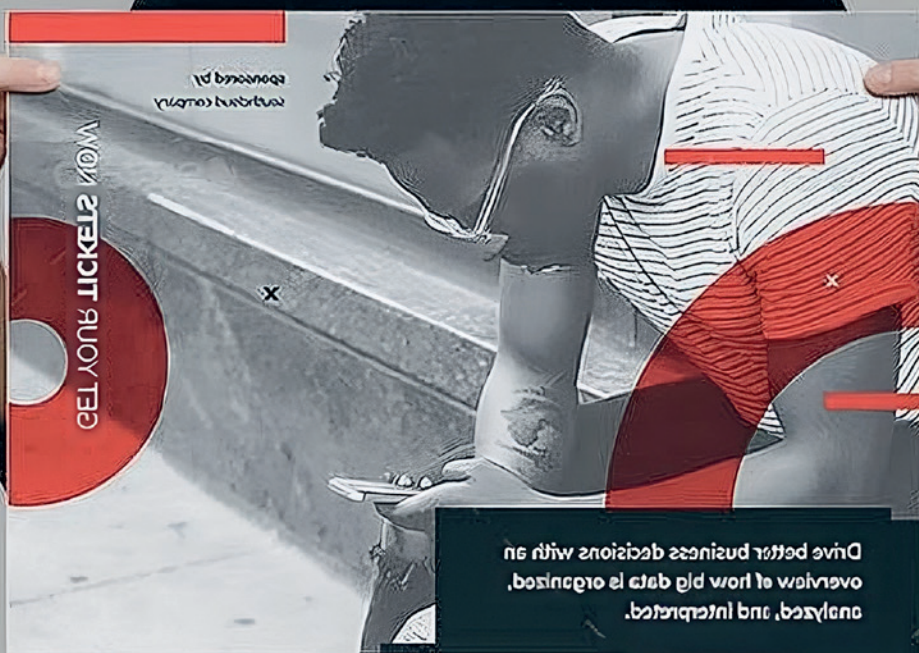

Posters

Posters are one of the most versatile and cost-effective promotional options available.

From a roll up banner to a poster hanger, they are a great way to take your message to masses in vibrant eye-catching colours. They fold up to compact size for travel and are ideal for conferences and trade shows or place in a reception or training area.

Poster Hangers are easy to use, with their anodized aluminium snap-action poster rails. They can be mounted on a wall or a ceiling. They come in four widths: 100cm, 85cm, 60cm and 40cm.

Menu Boards and Light Boxes

Magnetic Menu Boards – Standard Size or Customized solutions in a different array of finishes including a magnetic backing can be fixed directly on to the wall. Customized offers, different menus or any promotional materials can be changed easily using our magnetic printable receptive material.

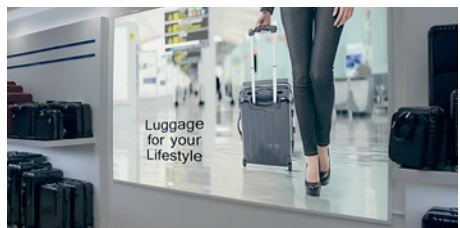

Framed Light Boxes – Standard Size light box frame solutions available in a different array of finishes. This light box has a Front Clear acrylic and backlit front printed material lit with LED Modules from the back. Ideal for Menus and promotional marketing messages.

Light Boxed for Commercial Purpose – Single sided or Double-sided customized solutions suitable for indoor or outdoor use. Acrylic face panels are printed with a graphic which is then back illuminated to give maximum impact. Construction – the light box is manufactured from robust silver anodized aluminium profiles, fitted with fluorescent tubes and all necessary electrics. The front panel is an opal acrylic which is printed with vinyl graphics or digital print for back illumination

Menu Board Stands – These Menu stands are made of Shiny Stainless steel and are very easy to change the menus as the frame can be opened from the front. The stand can be adjusted between 65 to 105 cms and the weight is 2.3 kilos.

Lockable Notice Boards – Lockable notice boards are essential in areas where information or key messages needs to be displayed.

- Back: Galvanized steel back with felt
- Water resistance included gasket if the notice board is installed outside
- Closing: Key Lock
- Installation: Both Horizontal and vertical
- External size: 91.5 x 66.5 x 3.5 cms
- Case finish: Silver Anode

Magnetic & Re-Writable

RE-writable Front Magnetic White Boards

Re-writable self-adhesive front magnetic film is ideal for schools, offices and playgroups. This line includes projectable products for dynamic lessons and conference presentations.

New ideas and different materials combined together can create multifunction, re-writable boards, where you can play with the magnetic and rewritable features on an entire wall set up or space.

Direct Print Magnetic Film

Magnet & Ferro is a direct print magnetic film and can be used to showcase your products with descriptive details and also ideal for restaurant menus. Magnet Ferro can also be used on cars as a means of effective advertising.

Glass Vinyl Signage

Frosted glass vinyl film, or frosted vinyl signage on glass, provides privacy and endless stunning design options all at once. Our custom frosted glass vinyl graphics simulate the effect of etched glass, which allows some light of sunny Malta to get through whilst being opaque enough to provide privacy for conference rooms or other sensitive areas. The options are endless — you can put a simple frosted glass vinyl logo on your door, use a frosted window signage as privacy film or even cover an entire conference glass wall for a brilliant frosted effect. We also create glass vinyl stickers for your offices or home and shower door decals for shower rooms. These can be any designs, be it ready-made patterns or custom glass decals.

Enhance your office and retail space with **one way vision glass**. One way vision glass is used for screen sunlight or to create privacy while showing your brand.

The true stick-and-peel for all surfaces, glue-free and bubble-free! Easy to print, apply and reposition. This is **Wally Glass Film**.

Vinyl Monometric Sign Cut, calendared sign cut films are available with gloss finish. Ideal for logos, wording, different shapes. The material offers excellent Cutting properties on a wide range of computerized sign making equipment, with easy weeding of the matrix after cutting. The films have been developed specifically for sign cutting purposes and are thermal transfer printable.

Floor Graphics

LAMINATED FLOOR VINYL

The world at your feet...transform high traffic floor areas into attention-grabbing ad spaces with our floor graphics. Our removable and Direct Print Floor Graphics are ideal for interior applications on most dry, clean and untextured floors. Ideal for short-term use in mall centres, retail, shops, exhibitions and airport terminals (maximum durability 1 month).

MAK FLOOR

MAK Floor is a self-adhesive layer for floor applications featuring a unique rough and significantly tactile texture. Thanks to it's 550 microns, it is indeed or thickest floor graphics film.

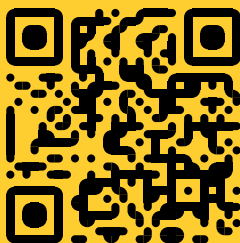

CARPET FLOOR

The soft balanced and comfortable texturized layer, with anti-slip standards and also a flame retardant. Carpet Floor is designed for Indoor use and any image can be printed directly.

Outdoor

Catch the eye of the passing crowd in Malta. Publicize your business products and services with Signage, Banners, Flags, and A-Boards. You name it we have it!

Signage

Indoor & Outdoor Signage

Signage can be portrayed in various ways and in various materials. Corporate identity, information or way-finding systems and advertising signage communicate messages about the business, offerings and locations. Signage can vary from illuminated signs and lightboxes, Metal & Aluminum & Acrylic cut-out letters, fabricated, 3d lettering and totem standing signs.

Modular Signage

Modular Signage & way finding solutions offer flexibility and high end solutions in indoor signage. Suitable for Hospitals, schools, offices and factories these high ends signs are produced according to ISO industry top quality standards.

I-Sign Eco is the newest member of the I-Sign family. I-Sign Eco maintains the same sleek design with the thin edge which became so typical for the entire I-Sign range.

It is possible to create single-sided wall mounting or double-sided suspended or flag mounting signs.

STRATO is a flexible and contemporary sign system consisting of a series of soft curved profiles with square sides.

The user can choose between plastic and aluminum end caps for the finish. Recently, a few profiles and end caps were added to the range that ensure that 400mm, 500mm and 600mm wide directories can be produced.

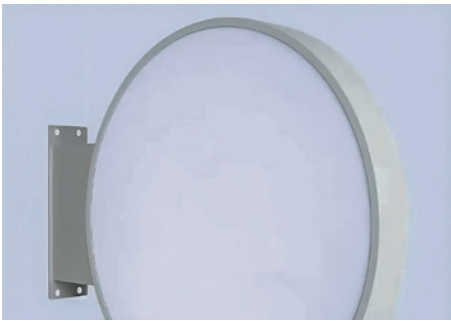

Outdoor Signage

The double-sided round banner is undoubtedly the sign par excellence when signaling any business. Available in two standard sizes, adaptable to all types of designs and clients. With lighting on both sides to identify it from afar and at any time of the day. Compact design, high performance, quality and durability.

Present it to your clients and they will surely love it.

- Illuminated Veterinary Projecting Sign: 50x50cm
- Illuminated Led Round Sign: Size 50cmØ and Size 60cmØ
- Pharmacy Cross LED Luminous Sign: 60x60cm
- LED Luminous Tooth Sign for Dentists: 42x60 cm
- Illuminated Round Corners Projecting Sign: 60x60 cm and Size 70x50 cm

Safety Signage

Workplace safety programs have many parts, all of which are important to keeping people safe on the job. Safety signs play a key role, though, in many aspects of safety from notifying people of tripping hazards and PPE requirements to explaining arc flash and chemical hazards. These signs must be noticeable, easy to read, and in many cases, comply with OSHA standards for safety signs.

Floor safety signs are built to endure forklift traffic, and are chemical, water, and UV-resistant. Wall signs are available in several materials, including PVC, aluminum, and adhesive-backed vinyl, so you can select the material that will work best in your facility. These signs were made to meet the demanding needs of industrial environments, and are made with the toughest material out there to ensure their longevity.

PVC Banners & Backlit Polyester

Intercast Banners

Our Intercast Banners act as a powerful rallying call for your brand. Tried and tested, these high-impact and cost-effective promotional tools are perfect for both indoor and outdoor use. They are the enduring favourites at festivals, sporting events, trade fairs, exhibitions, product launches, seasonal promotions and corporate events. Banners are also an extremely popular choice for Point of Sale branding in stores and shopping malls. Our vinyl banners are reinforced for heavy-duty usage and can also include mounting eyelets for stringing up. Outdoor banners are printed on heavy duty weather resistant woven fabric. And they include eyelets for easy tying down. Also available in Back lit for special applications of Light Boxes

Intercast Backlit Polyester Banners – Ideal for Backlit lightboxes and exhibition graphics

PVC banners deliver a message and are a powerful product used for both indoor and outdoor applications. Using our large format digital printers, with full colour image potential, our quality and cost effective PVC banner solutions present neat, portable, and durable weather resistant branding options. Our custom PVC solutions also include mounting eyelets for stringing up, pockets for poles and can be fixed to railings and other frames for event use.

Intercast Mesh Banner – A high tear resistant printable vinyl mesh surface, ideal for outside use in high wind areas. With its fine mesh, it allows wind to pass through.

Vehicles

Use your vehicles to advertise your business, products and services. Our car wrapping is ready to apply to windows or panels. Alternatively if you want non-permanent options try out custom made magnetic signs. Make the most of your rear windows with one way vision. This allows visibility from inside your vehicle while advertising your brand whilst driving around. Using Full cast Materials to one way vision these moving Billboards reflect your Brand.

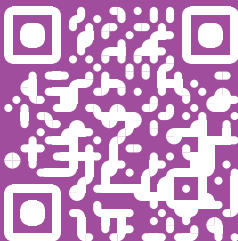

Rigid Media

Whether you need a print on Di Bond or PVC board we offer high-quality, full-color printing on both material either using a UV Direct print and Vinyl laminated print. One can choose the classic rectangle, square shapes or one can get creative with any of our unique forms: octagon, arrow, star, apartment, house, and circle or any CNC cut Design.

Promotional Material

Promote your products and services in a very effective way with promotional materials of any kind. Linka, a promotional materials provider in Malta, offers a variety of services to meet your requirements and helps you reach your success.

Clothing & Uniforms

Let your company Brand name be heard with custom printed clothing and stand out of the crowd. Whatever the occasion or need, we've got you covered.

Our pavement signs are a fantastic tool to get you noticed: they create a high impact visual street advertising, so that passersby can't miss them!

Whether it is to promote new products and offers, advertise a sale or let the public know you are open, they are an extremely effective marketing tool and provide excellent value for money. A-boards are transportable, so they can be used to suit your needs or stored and locked away when required.

Pavement boards with a water-filled base for extra stability in all weather conditions are also available. Customized solutions are also available.

A Boards

The logo 'linka.' is centered on a dark navy blue rectangular background. The word 'linka' is in a white, lowercase, sans-serif font. A small yellow dot is positioned above the 'i', and a small red dot is at the end of the period. The background features abstract, hand-drawn style elements: a light blue shape at the top left, a thin yellow line curving from the top left towards the center, and a thin white line at the bottom right ending in a red dot. The entire graphic is mounted on a silver-colored metal stand with two visible feet.

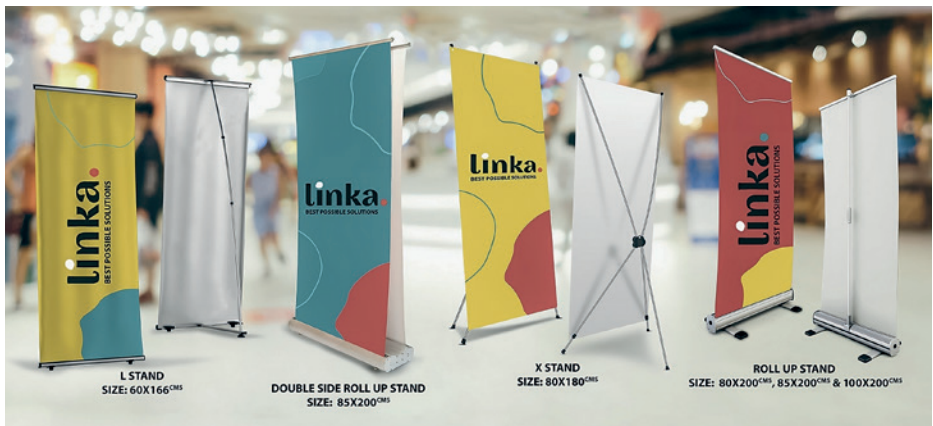

linka.

A modern office hallway with a polished floor and white walls. On the right, there are glass-walled offices. In the distance, two potted plants are visible. A large purple circle is overlaid in the upper right corner, containing the text "Roll up Banners".

Roll up Banners

Roll up Banners

Roll-up Banners, also known as Pop up Banners, Retractable Banners or Pull-ups, are an essential part of advertising your desired product. Get your particular message across anywhere in Malta you would like to establish a fantastic visual presence. Roll-up banners are an extremely effective tool for an eye-catching presentation, exhibition, shop display or campaign and really grab the attention of your desired audience. Linka, located in Malta, offers you pull-ups with any design of your taste. Pull-ups are very easily mounted and come with a canvas carry bag to make them easily transportable. Roll Up Lamps also available. Let your message on a retractable banner be visible around the clock with roll up lamps of any type and size.
